THE INDIAN COMMISSION.

Listening to Pale Face Palaver About Opening the Sioux Reservation.

Omaha, Neb., September 8.—Senators Dawes, Logan and Cameron, the active members of the senate Indian commission with Chester W. Dawes, clerk, J. J. Christy, Nelson Parker, Dr. V. C. McGilileuddy, Indian agent at Pine Ridge, and H. T. Thomas, of Fort Niobrara, arrived in the city last night. The Dakota constitutional convention having adopted a memorial to open the great Sioux reservation, the committee is here to lay the Omaha, Neb., September 8.-Senation, the committee is here to lay the matter before the commission. They sat this morning to listen to a statement by Judge Shannon, of Dakota one of the commission appointed by the secretary of the interior to make a treaty with the Sioux association. It has been claimed this commission de-ceived the Indians and obtained a treaty by which thirteem million acres were ceded for twenty five thousand cows and one thousand bulls, or about three-fourths of a cent per acre, and it has developed that mere children were allowed to sign.
Judge Shannon this morning denied
there was anything dishonest or

The land ceded was be tween White and Cheyenne rivers, Mr. Hinman has been employed as an interpreter, and Shannon did not believe Hinman had misrepresented anything to the Indians. Judge Moody then addressed the senate committee on behalf of the people of Dakota, dwelling upon the advantages to be derived both by the Indians and whites from the opening of the great reservation.

THE NEW POSTAL NOTES.

Refused by the Chicago Banks and Declared a Falture.

Chicago, September 8.—From the action of the local banks and the number of complaints filed at the postoffice, it appears that the postal notes issued to the public last Monday are already deemed a failure in this city. A great many began to arrive here a day or two after the first issue, being sent in lieu of drafts for small amounts and were at once deposited the same as checks or drafts. Numberless mistakes were made by postmasters sending them, which caused the banks to refuse to accept them, and this action is decreed tantamount to destroying their usefulness. The postoffice offi-cials also declare that the handling of postal notes and the work of rectifying errors has entailed an unusual amount of additional labor on the working
